Technological Innovations: Good or Evil?

Technology is _____.

(From last week) Technology is to take what has been crafted and systematize it- or make it available and accessible to all- for the sake of amplifying _____.

Case Studies: Genesis 6 & Genesis 11

Genesis 6:11-22

This technology was _____ idea.

It wasn't the _____ we would have chosen.

It resolves a _____ we didn't anticipate.

We see that God doesn't _____ technology to carry out His will,

God _____ technology to carry out His will!

Genesis 11:1-9

This technology was _____ idea.

It was a technology that was _____.

It created a _____ that God was prepared to address.

Brainstorm the ways that God gets glory from diversity. Consider what this development of people groups does for the Kingdom that God is building.

Conclusion

God is not _____ by technology, nor is He _____ on it.

Rather, He has seen fit to use it to accomplish His _____.

The ark isn't the only time that the Lord used a _____ we wouldn't have chosen to resolve a _____ we didn't anticipate.

When else did this happen? _____

And the _____ wasn't the last time a people, holding their _____, thought they could make themselves gods.

When else did this happen? _____
